Model #	Name	Description	Image	Retail Price incl VAT	Retail ex VAT
Oxygenics Showerheads					
All showerheads have a flow rate of less than 10 LPM at 400 kPa (approximately 8.5 LPM at 300 kPa)					
All showerheads require water supply pressure of 100 kPa minimum, other than Value Eco Low Pressure model 50-100 kPa					
*All watersaving showerheads, from any manufacturer, and other flow reducing water saving devices, such as aerators and One Touch Taps, should be used only with a balanced water supply pressure. If in doubt, consult your plumber					
Oxygenics SA (Eternally Solar) reserves the right to alter specifications at any time					
ezshvs	SmartValue	Entry level eco-Shower, excellent shower performance at standard pressure - one year warranty *Use with balanced water supply pressure		R 100.00	R 87.72
