Dear Shannon,

Our experience with the Oxygenics SkinCare showerhead has been nothing short of spectacular. A few years back, we were becoming increasingly dissatisfied with the showerheads in our hotel and began testing new brands. We installed 6 Oxygenics showerheads in our guest rooms in January 2001 and were extremely pleased. Not only did we save money in water and energy bills, but also we received wonderful guest feedback!

The Oxygenics showerhead was chosen after testing a variety of different brands and models. It only took minutes to install the new fixtures and the styling and beautiful chrome finish was the perfect touch to our bathrooms. Additionally, yours was the only one that would stand up to the rigors of daily use and abuse that our hotel faces. In total we have over 200 showerheads installed and we continue to get positive responses from guests and maintenance. We have used Oxygenics for over 4 years now, and they have never clogged or broken. They seem to be indestructible!

Financially, this showerhead will pay for itself in a few months, and we continue to save money every day through water savings, lower energy bills, and virtually non-existent maintenance fees. The satisfied guests alone have made the purchase worth every penny. I have recommended your showerhead to other hotels and resorts and will continue to do so.

We hold you in the highest regard and thank you for a quality product that continues to impress.

Sincerely,  

Clinton McKenzie
